Education

Bachelor of Technology in Computer Science and Engineering

Indian Institute of Technology, Palakkad, Kerala, India

2020 – May 2024

- Relevant Coursework: Data Structures, Algorithms, Theory of Computation, Compiler Design, Operating Systems, DBMS, Computer Networks, AI/ML, HPC, Formal Methods.
 - Leadership: SW project team lead, General Secretary (Academic Affairs), Conclave Coordinator.
 - Activities: Football Club, National Service Scheme (NSS), Literary events.
-

Technical Skills

- Programming: Python, C, C++, C#
 - ML/DL: PyTorch, TensorFlow, scikit-learn, GANs, NLP, CV (YOLO), Audio Processing, RL, LLMs, LoRA/QLoRA, RecSys, RAG, GenAI
 - Data Engineering: pandas, NumPy, Spark, Airflow, AWS (S3, SageMaker), Docker, Kubernetes
 - Databases: PostgreSQL, MySQL, MongoDB, FAISS, Weaviate, Neo4j
 - Cloud/DevOps: AWS, GCP basics, Docker, Kubernetes, CI/CD, Linux scripting
 - Web/API: FastAPI, Flask, .NET Core, Angular, React
 - IR: Elasticsearch, TF-IDF, BM25
 - Statistics: Hypothesis testing, regression, time-series, A/B testing
 - HPC/Optimization: Slurm/PBS scripting, monitoring (Grafana)
 - Tools: Git, Jira, Slack, Grafana dashboards
-

Experience

Data Scientist

Turing India, Bengaluru

May 2024 – Present

- Built ML pipelines (ETL, training, deployment) reducing rollout time by 30%.
- Improved model accuracy by 12% through feature engineering + tuning.
- Developed multimodal and GAN-based solutions for robustness and augmentation.
- Automated workflows with Airflow/AWS S3, cutting runtime by 40%.

Full Stack Developer Intern

Siemens India, Bengaluru

May 2023 – Sep 2023

- Prototyped AI/ML models to improve enterprise data efficiency.
- Enhanced UI/UX in internal apps (Angular/React), boosting engagement.
- Built REST APIs (FastAPI), containerized with Docker, deployed on Kubernetes.

Project Intern – HPC System Administration

IIT Palakkad ICSR

Dec 2022 – Apr 2023

- Automated Slurm/PBS scheduling scripts, improving cluster utilization.
- Built Grafana dashboards + alerts for fault detection.

General Secretary of Academic Affairs

IIT Palakkad

Apr 2023 – Apr 2024

- Represented 2000 students in academic committees, led conclave with 50+ delegates.
-

Selected Projects

Formal Verification of Redundancy Management Logic

IIT Palakkad

Aug 2023 – May 2024

- Verified avionics redundancy management system for ISRO using Coq.

Text-to-Face Image Generation (GANs)

IIT Palakkad

Aug 2023 – Dec 2023

- Built StyleGAN3-based pipeline to generate faces from text, with 85% alignment.

MessengerApp (Real-time .NET/React)

IIT Palakkad

Aug 2023 – Dec 2023

- Developed real-time messaging platform with SignalR/WebSockets.

Shoe Hub E-commerce Platform

IIT Palakkad

Jan 2023 – May 2023

- Implemented B2B/B2C prototype with FastAPI, PostgreSQL, and Streamlit UI.

Information Retrieval Search Engine

IIT Palakkad

Jan 2023 – May 2023

- Built an Elasticsearch-based engine, tuned TF-IDF/BM25 for precision gains.

Vehicle Recognition via Audio Features

IIT Palakkad

Aug 2022 – Dec 2022

- Classified vehicles using CNNs on mel-spectrograms, reaching 95% test accuracy.
-

Leadership & Extracurriculars

- Industry–Academia Conclave Coordinator: Increased participation by 25%.
 - General Secretary (Academic Affairs): Represented 2000+ students.
 - Coding Club Mentor: Led ML/DS workshops, mentored hackathon teams.
 - Football Club, NSS, Literary events.
-

Certifications

- Micro1: Certified Data Scientist
- Google: ML on BigQuery, Generative AI, Responsible AI, Vertex AI
- DeepLearning.AI: Neural Networks and Deep Learning
- McKinsey: Forward Program
- Coursera: Advanced Data Science with Python, ML Specialization
- Kaggle: Python, Pandas, SQL, ML, DL, CV, RL, Geospatial, Time Series
